

## SWEC/CARLTON LAPAROSCOPIC KNOT PUSHER

Sydney Women's Endosurgery Centre in association with Dr Mark Carlton have designed the first laparoscopic knot pusher suitable for tying and securing both **INTRA** and **EXTRA-CORPOREAL** knots.

The unique design of this innovative knot pusher allows the suture to remain in contact with the pusher and to retain the suture when securing both ante-grade slip knots and standard surgical knots, whether tied intra or extra-corporeally.

### Features

- Re-usable
- Ease of sterilisation
- -4mm diameter
- -45cm long
- Rounded and beveled pushing surfaces to prevent suture cutting and degradation
- Suitable for monofilament and braided sutures
- Most suture diameters
- Can also be used at open and vaginal surgery

Price – AUD\$880.00 (no GST on this product)
