CAREER MILESTONES

1999- present	Treasurer, Sydney Women's Endosurgery Centre (SWEC) Established in 1995 by Professor Michael Chapman at St George Public Hospital, SWEC was the first advanced gynaecological minimally invasive surgery (MIS) unit in Australia. Dr Rosen was appointed as the inaugural SWEC Fellow the following year (1996-7) and returned from a Fellowship year in the UK in 1999 to take up a position in the unit and at the affiliated public hospital. Since that time, similar MIS units have been established at all major centres in Australia (and around the world). SWEC has run an advanced laparoscopic course three times per year since 1996 hosting trainees and fellows who wish to see the latest surgical techniques and improve their surgical skills. It is a research arm of the UNSW through St George Public Hospital and publishes in local and international journals. SWEC Fellows and surgeons also present their research at national and international meetings and have provided major contributions and direction to the Australasian Gynaecological and Surgical Society (AGES).
2021-present	Director, Sydney Women's Endosurgery Centre: responsible for supervision of RANZCOG Fellows, coordination of medical student rotations with SWEC, employment of SWEC fellows, administration of SWEC Finances and general administration of the unit at large.
2020-present	Director, SWEC Centre of Excellence in Minimally Invasive Gynaecology and Endometriosis Care (MIG/MEC). The Surgical Review Corporation, North Carolina, USA, administers an International programme for surgical centres of all disciplines. To comply, a unit must conform to surgical standards and provide an up-to-date prospective database of caseload, complications and show evidence of multi-disciplinary review meetings. SWEC gained COE status in 2020 under the guidance of Dr Rosen who is the Director and administrator of the programme, in order to provide an ongoing quality assurance programme for the unit.
2000-2002	Investigator and Training supervisor for Hysteroscopic Sterilization (Essure) device for Conceptus Inc. (USA).
2005	Organizing Committee, AGES ASM, Sydney
2012	Accreditation on the da Vinci Robotic Platform – Dr A Advincula, Celebration, FLA.
2021	Accreditation on the CMR Versius Robotic Platform
2022	Conjoint Senior Lecturer, Division of Women's and Childrens Health, UNSW
